

## Appreciation Letter

We take this opportunity to acknowledge the hard work of Kunal Sachdev in Supporting Mission Green Mumbai's initiative of upcycling discarded mango kernels,

He contributed 100 mango seeds to the mission in the summer of 2021 and 2022. The seeds collected were organically processed and germinated, followed by grafting them into KESAR Mango which grows well with the soil quality we have in Maharashtra. The saplings are then sent to farmers in the Murbad District of Thane for plantation, benefitting the environment and assisting farmers in earning their livelihood.

We call him a Green Hero of Mission Green Mumbai for his efforts.
